• LABELS TO TTB :

January 31 Send your final label design (**.jpeg format only**) to susie@juddshill.com who will submit it on your behalf. We will notify you via email when the TTB approves your label OR if they require any changes. Approvals generally take up to 4 weeks.

OAK, BLENDING AND BOTTLING DEADLINES

• OAK TRIALS:

February - April If you would like to add oak to your wine, Eric recommends doing an oak trial prior to bottling.

What you need to know about oak trials:

1. They take 2 weeks to prepare.
2. It's important to taste them at the 2 - 2.5 week marker.
3. It takes 2 months to fully integrate the oak that you choose with your wine.

• BLENDING (ONE AND TWO-YEAR WINE):

May and June Blending appointments are available during the week, with the exception of a few weekends, which are first come, first serve. We use SignUpGenius for scheduling so look for an email in your inbox for upcoming availability.

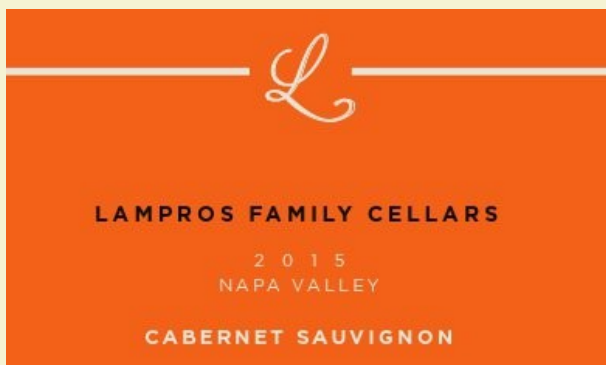

• BOTTLING:

April - Harvest Bottling will begin in April with 6 month and one-year wines and continue up until harvest. Once harvest is complete, bottling will resume. **If labels are not received in time for bottling your wine will be bottled in shiners and will accrue storage fees of \$15/case per month along with a \$500 rework fee.**
